

Medical Advisor (m/f)*

Reference-number: 1001410

Company Information

Our client is an Austrian pharmaceutical company with a clear focus on the development, production, marketing & sales of innovative, safe and effective drug products for the treatment of neurodegenerative and cerebrovascular diseases.

The research activities concentrate upon the area of neurosciences. The results serve as a basis for new treatments of Dementia, Stroke and Traumatic brain injury.

The company is internationally active, with marketing & sales activities in over 50 countries world-wide and with a strong network of own sales organizations in key markets.

Position

In this position you are responsible for the clinical-medical evaluation of projects from Licensing and M&A and you will contribute to the strategic therapeutical orientation of the company, which will, among others, include:

- to maintain close contact to scientists and opinion leaders in several relevant indications
- to bring in medically based propositions for Licensing and M&A
- review and evaluation of Licensing and M&A possibilities
- formulate a potential plan for development in consideration of time and costs
- responsible for reporting and publications about clinical-scientific results
- presentation and discussion of clinical projects and results with public authorities

Candidate Profile

- medical or natural sciences degree
- at least 5 years of relevant working experience
- medical and professional knowledge of different therapeutical areas, especially in neurosciences
- knowledge of the national and international public health sector
- international know how and an extensive network within the pharmaceutical field
- very good communication skills, including an excellent command of written and spoken English

Direct Reporting Line: Department Head Medical Affairs

Place of Work: Salzburg area

Salary Range: Annual gross salary from € 70.000,- according to skills and experience
